Amended by the NEC by Round-Robin Vote on 23 November 2016 and at the NEC Meeting on 9 December 2016

PROPOSED HIGH-LEVEL ROLE DESCRIPTION OF THE VICE-PRESIDENTS IN RESPECT OF THE COMMITTEE CLUSTERS

WHAT TO DO:

- To ensure that synergies are developed between the committees in the groups of clusters
- To ensure that the Regulations developed by each cluster is regularly reviewed and kept up-to-date
- To assist in developing the broad agenda for the groups of clusters
- To advise the committee cluster chairpersons on key policy matters / organisational strategy
- To share international trends with the committee clusters (FIFA, CAF, COSAFA, Int'l Best Practice)
- To monitor the performance of the committee clusters in terms of Vision 2022 targets
- Advise the President on matters related to the groups of clusters he/she is monitoring
- To ensure seamless interaction between the clusters and the four operational divisions in the Administration
- Ensure that committee members / chairpersons are properly developed for their roles (serve as mentors to committee chairpersons)

WHAT TO AVOID:

- The VP is not the Chairperson of the cluster and must allow space for the cluster chairperson to operate
- The VP is not the spokesperson of the groups of clusters
- The VP should avoid giving instructions to the divisional heads and focus on providing support and guidance
